

Foundational Statements

Who We Are:

Guardian Christian Academy is a Biblically-integrated, college preparatory school, using qualified teachers in a traditional, teacher-directed classroom setting.

Our Mission

In partnership with Christian families, the mission of Guardian Christian Academy is to provide an excellent education, from a Christ-centered and Biblical perspective, that develops student's minds, bodies, and spirits and equips them to discover their role in God's eternal plan. It is our goal to prepare them to impact their world for Christ.

Our Vision

Our vision is that graduates of Guardian Christian Academy become mature Christian adults who possess Godly wisdom, knowledge, and a Biblical worldview, as evidenced by a lifestyle of character, leadership, service, stewardship, and worship.

Our Philosophy of Christian Education

We believe that God has given parents the primary responsibility for training and educating their children, while the Christian School has an important supportive role. We believe that the school is to be an extension of the home with authority delegated to it from the parents. We, therefore, desire to have a healthy working relationship with each family and to develop an effective partnership. Because all wisdom, knowledge, and truth originate with God, courses taught at Guardian Christian Academy will be taught from a Biblical worldview, directing the student's focus to Jesus Christ who is the Truth and the source of life and eternal salvation. In so doing, we desire to help families fulfill the Biblical mandate to "train up your children in the nurture and admonition of the Lord" (Ephesians 6:4). Quality Christian education is achieved when parents, students, teachers, administrators, staff, and board members firmly support the school and one another in every aspect and maintain open communication with one another.

The following roles and attitudes are essential:

- Parents are responsible for their child's education and spiritual growth.
- Teachers must realize a calling for teaching and be spiritually and academically qualified.
- Students must have a desire to learn and to grow in mind, body, and spirit, to strive for excellence in studies and activities, to be respectful of others, and to serve the school, church, and community in the name of the Lord Jesus Christ.
- The Administrator should be the spiritual leader and key visionary of the school.
